

Parental Consent Form for Student Photos

Kitsap Music Teachers Association (KMTA) maintains a website and Facebook page for information about our activities and events. We also email a monthly newsletter to our member teachers which is also posted on the website. With parental permission, photos of minor students taken at our events may be posted to these sites or in the newsletter. Generally, students in such photos will not be identified unless they are highlighted by the context of the posting -- competition or scholarship winners, for example. Please indicate below what level of permission you will provide for your student's photo to be published by KMTA.
